

SOUTHERN PALLADIUM LIMITED

Developing the Bengwenyama Project for a Cleaner Future

The following disclaimer applies to this investor presentation (Presentation). You should read this disclaimer carefully before reading or making any other use of this Presentation or any information contained in this Presentation. By accepting this Presentation, you represent and warrant that you are entitled to receive this Presentation in accordance with the restrictions, and agree to be bound by the limitations, contained within it. This presentation has been prepared by Southern Palladium Limited ACN 646 391 89 (Company) for the purposes of its non-deal roadshow.

This Presentation contains summary information about the Company and its subsidiaries (Group) and their activities which is current only as at the date of this Presentation. The information in this Presentation is of a general nature and does not purport to be complete or comprise all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a prospectus or other disclosure document prepared in accordance with the requirements of the Corporations Act 2001 (Cth) (Corporations Act). The distribution of this Presentation (including an electronic copy) outside Australia may be restricted by law. If you come into possession of this Presentation, you should observe such restrictions and seek your own advice on such restrictions. Any non-compliance with these restrictions may contravene applicable securities laws.

The information contained in this Presentation is not financial product, investment, legal, taxation or other advice or any recommendation to acquire securities in the Company. No reliance may be placed for any purpose whatsoever on the information contained in this Presentation. This Presentation does not and will not form any part of any contract for the acquisition of securities in the Company. This Presentation has been prepared without taking into account your investment objectives, financial situation or particular needs. Before making an investment decision, you should make your own enquiries and investigations, and consider whether it is a suitable investment for you in light of your own investment objectives, financial situation and particular needs, having regard to the merits or risks involved. An investment in securities in the Company is subject to investment and other known and unknown risks, some of which are beyond the control of the Group. The Company does not guarantee any particular rate of return or the performance of its securities, nor does it guarantee any particular tax treatment. You should carefully consider the risks outlined in this Presentation before making an investment decision.

This Presentation contains forward looking statements, including statements regarding the Company's intentions, beliefs or current expectations about the Group's business and operations, and market conditions. Forward looking statements can generally be identified using forward looking words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target" and other similar expressions. Forward looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Forward looking statements involve known and unknown risks, uncertainties, assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends which are based on interpretations of current market conditions. Actual results, performance or achievements may vary materially from any forward looking statements and the assumptions on which statements are based. Except as required by law or regulation, the Group disclaims all obligations to update publicly any forward looking statements, whether as a result of new information, future events or results or otherwise. Past performance information given in this Presentation is given for illustrative purposes only and should not be relied upon as an indication of future performance.

Certain market and industry data used in connection with this Presentation may have been obtained from research, surveys or studies conducted by third parties, including industry or general publications. Neither the Group nor its representatives have independently verified any such market or industry data provided by third parties or industry or general publications. No representation or warranty, express or implied, is made as to its fairness, accuracy, correctness, completeness or adequacy.

None of the Group's advisers, directors, officers, employees or agents have authorised, permitted or caused the issue, dispatch or provision of this Presentation nor, except to the extent referred to in this Presentation, made or purported to make any statement in this Presentation. To the maximum extent permitted by law, the Group and its advisers expressly disclaim all liabilities and responsibility in respect of any expenses, losses, damages or costs incurred by any recipient as a result of the use or reliance on anything contained in or omitted from the information in this Presentation, including, without limitation, any liability arising from fault or negligence or otherwise, and make no representation or warranty, express or implied, as to the fairness, currency, accuracy, reliability or completeness of the information contained in this Presentation.

This Presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States. This Presentation may not be distributed or released in the United States. Securities in the Company have not been, nor will be, registered under the U.S. Securities Act of 1933, as amended (U.S. Securities Act) or the securities laws of any state or other jurisdiction of the United States. Accordingly, the securities in the Company may not be offered or sold, directly or indirectly to, persons in the United States or persons who are acting for the account or benefit of a person in the United States unless they have been registered under the U.S. Securities Act (which the Company has no obligation to do so or procure) or in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and any other applicable U.S. state securities laws.

All dollar values are in Australian dollars, unless otherwise stated.

Bengwenyama Project Highlights – Unlocking Substantial Value

In the heart of the Eastern Limb of the Bushveld Complex which holds approx. 72% of the world's PGM resources.

Shallow, advanced exploration Platinum Group Metals (PGM) opportunity

Bengwenyama Project 100%: Inferred JORC (2012) Resource: 19Moz (3 PGE+Au) | Exploration target: Additional 134–201Mt at 3.5–5.2 (3 PGE + Au g/t)

Phase 1 drilling programme has commenced in August 2022

Two-year program aimed at delivering PFS for a significant sized new mine followed by the submission of a Mining Right Application

A single local community strongly supportive of development

Note that the potential quantity and grade of the Exploration Target is conceptual in nature, that there has been insufficient exploration to estimate a Mineral Resource and that it is uncertain if further exploration will result in the estimation of a Mineral Resource (See Appendix).

Southern Palladium Ownership – Post IPO

Listed on both the ASX and JSE on 8 June 2022

Total number of shares issued	89.75 million
Founder Deferred Shares*	1.2 million
Options at 75% of issue price	7.34

* Issued if at least 2,000,000 oz of PGE (4E) Reserves have been identified, comprising at least 15 million tonnes and a grade of at least 3.0 grams per tonne within four years after the IPO date

Market Cap and EV	
Market cap @ A\$0.92 cps	A\$83m
Enterprise value	~A\$66m/USD45m
Cash in Bank	A\$16.56m

Southern Palladium

NON-EXECUTIVE CHAIRMAN

Terence Goodlace

- 40+ years mining experience
- Board member and CEO of Impala Platinum Holdings Limited, South Africa's 2nd largest PGM producer
- 28 years in executive and leadership roles with Gold Fields Limited
- Currently the independent non-executive chairman of Kumba Iron Ore Limited and an independent NED at Gold Fields Limited and AfriTin Limited.

MANAGING DIRECTOR

Johan Odendaal

- 36 years' experience in mining with several years at Merrill Lynch as PGM analyst
- Diverse experience in mining consulting
- CEO of MUM (the prospecting right holder) for past 6 years

NON-EXECUTIVE DIRECTORS

Mike Stirzaker

Daan van Heerden

Rob Thomson

Geoff Hiller

COMPANY SECRETARY

Andrew Cooke

EXPLORATION AND RESOURCE GEOLOGIST

Uwe Engelmann (Minxcon managing exploration program)

- 23 years' mining and exploration industry experience in South Africa
- Held various geological positions including as Ore Resource Manager in production and exploration
- Involved in most aspects of exploration, in a wide range of geological environments and commodities including platinum

MUM

NON-EXECUTIVE – CHAIRPERSON

Adv. Lindi Nkosi-Thomas

- Bachelor of Laws (LLB) Law
- Senior Counsel and a member of the Johannesburg Bar

NON-EXECUTIVE DIRECTOR

Joel Nkosi

- B.A, B.ED degree and U.ED diploma, former Principal of the local school
- Deputy Chairman of the Traditional Council of the Bengwenyama-ya-Maswati Community

EXECUTIVE DIRECTOR – SITE MANAGER AND COMMUNITY AFFAIRS

Daniel Nkosi

- B.Ed degree , Hons degree in Labour Relations and Human Resources, Higher Diploma Organisational Development
- Human Resources professional with good all round Supervisory and Leadership expertise

CEO

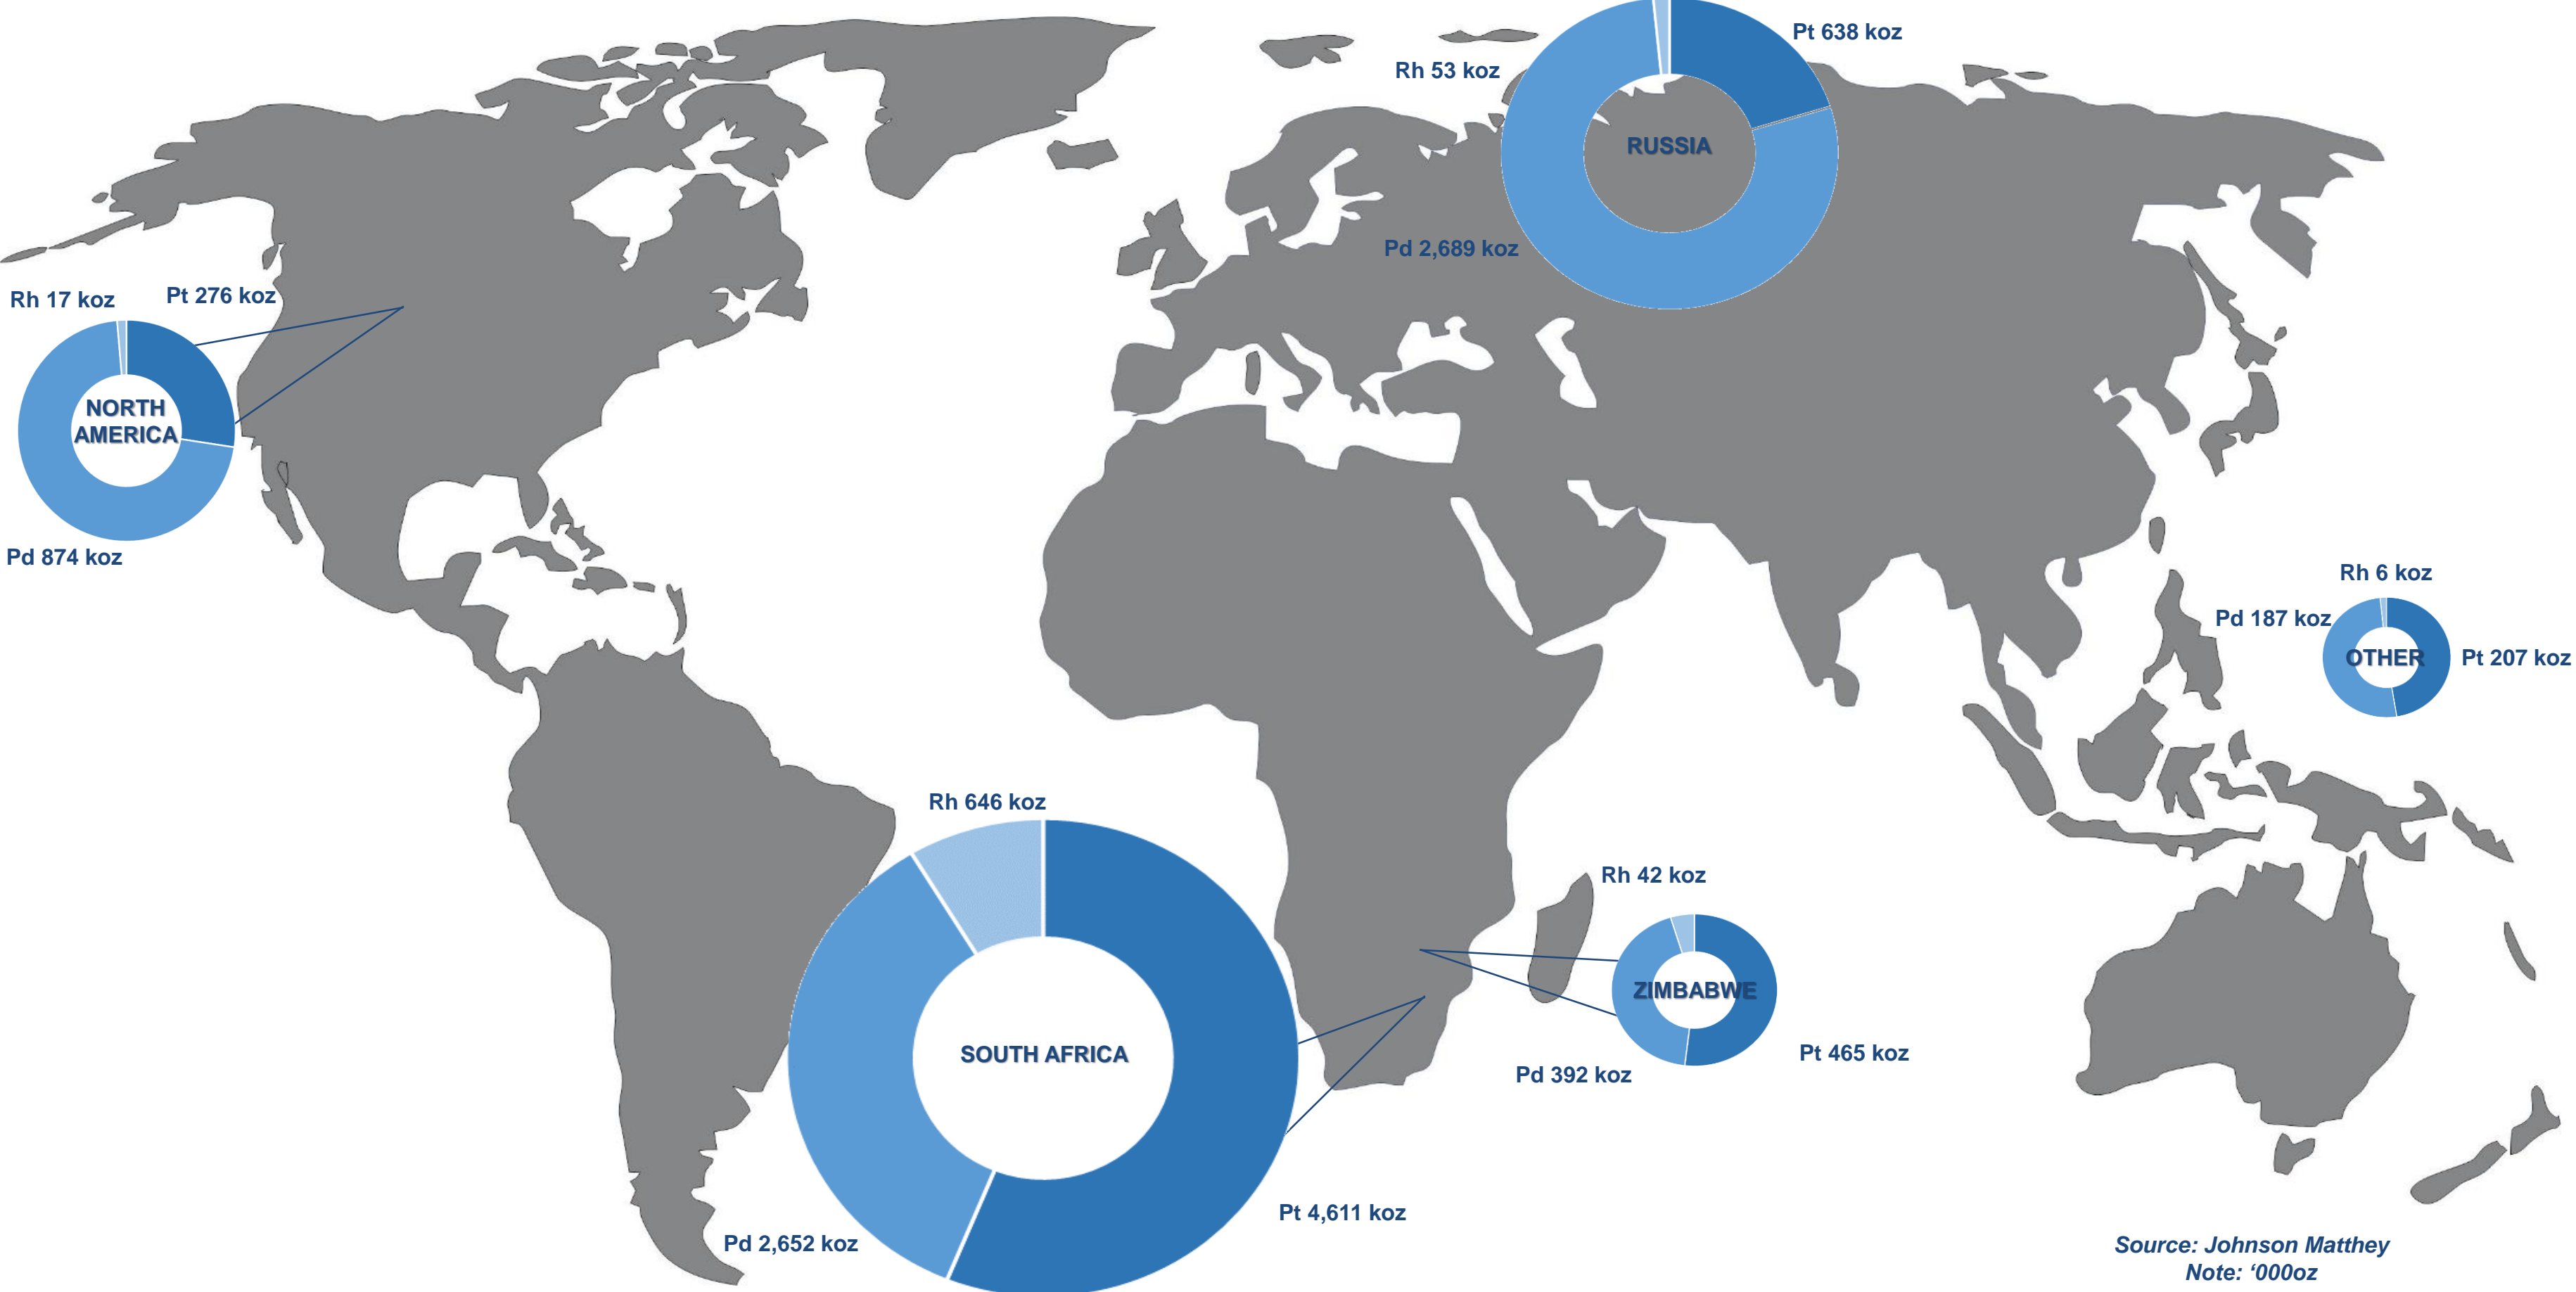

Johan Odendaal

NON-EXECUTIVE DIRECTORS

Mike Stirzaker

Daan van Heerden

Concentrated PGM Location: South Africa Producing Approx. 57% of Global Primary Supply

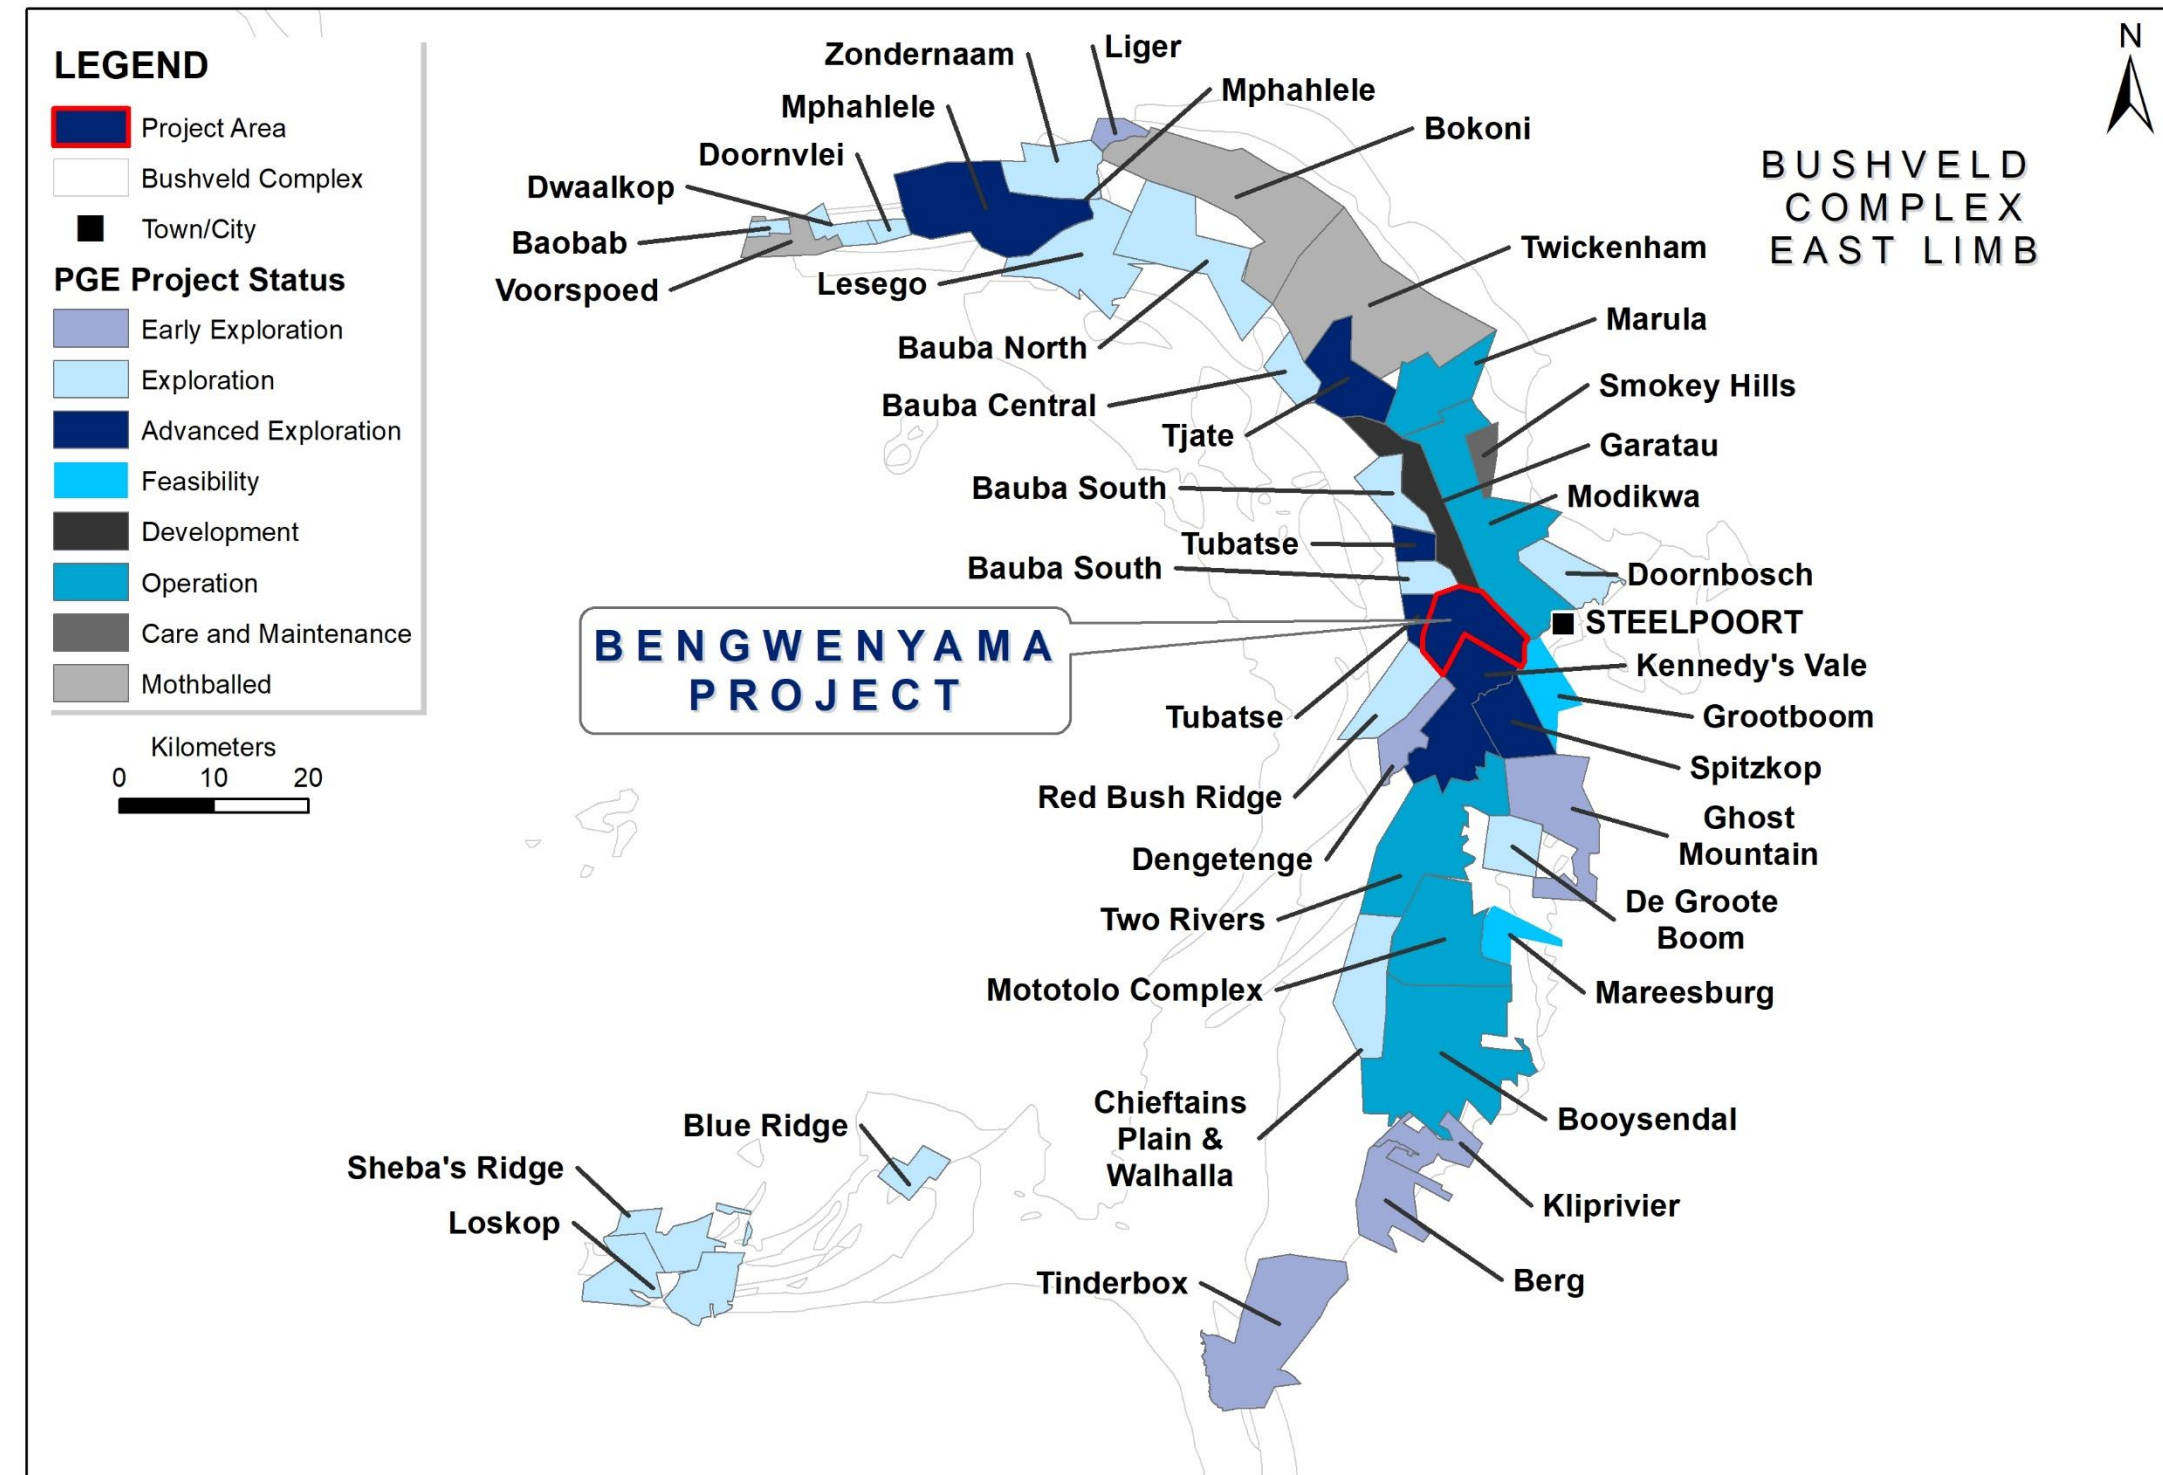

Source: Johnson Matthey
Note: '000oz

Substantial Potential from Surface with High-grade Ounces from Outcrop

- One of the last remaining, undeveloped PGM projects to be developed from near to outcrop
- Located between Tier 1 mines, Modikwa (Angloplats/ARM) and Two Rivers (Implats/ARM)
- Amenable to conventional mining methods used in the Bushveld
- Negligible metallurgical risk. Conventional path to concentrate production
- Good availability of third-party smelting and PGM refining capacity in South Africa

Simplified PGM Value Chain in South Africa

On Site

Off Site in South Africa

Global

Activity

Open pit and Underground

Crushing and Milling

Drying and Smelting in Electric Furnace

Base Metal Refining

Froth Flotation And Filter Press

Converter

Precious Metal Refining

Sulphur Removal

Output

- Run of mine: Ore (Merensky/UG2/Platreef, 3-6 4E g/t)

- Composite concentrate: (150-200 4E g/t)
- Tailings (to tailings dams)
- Chromite recovery

- Converter matte: (>2,800 4E g/t)
- Sulphuric acid

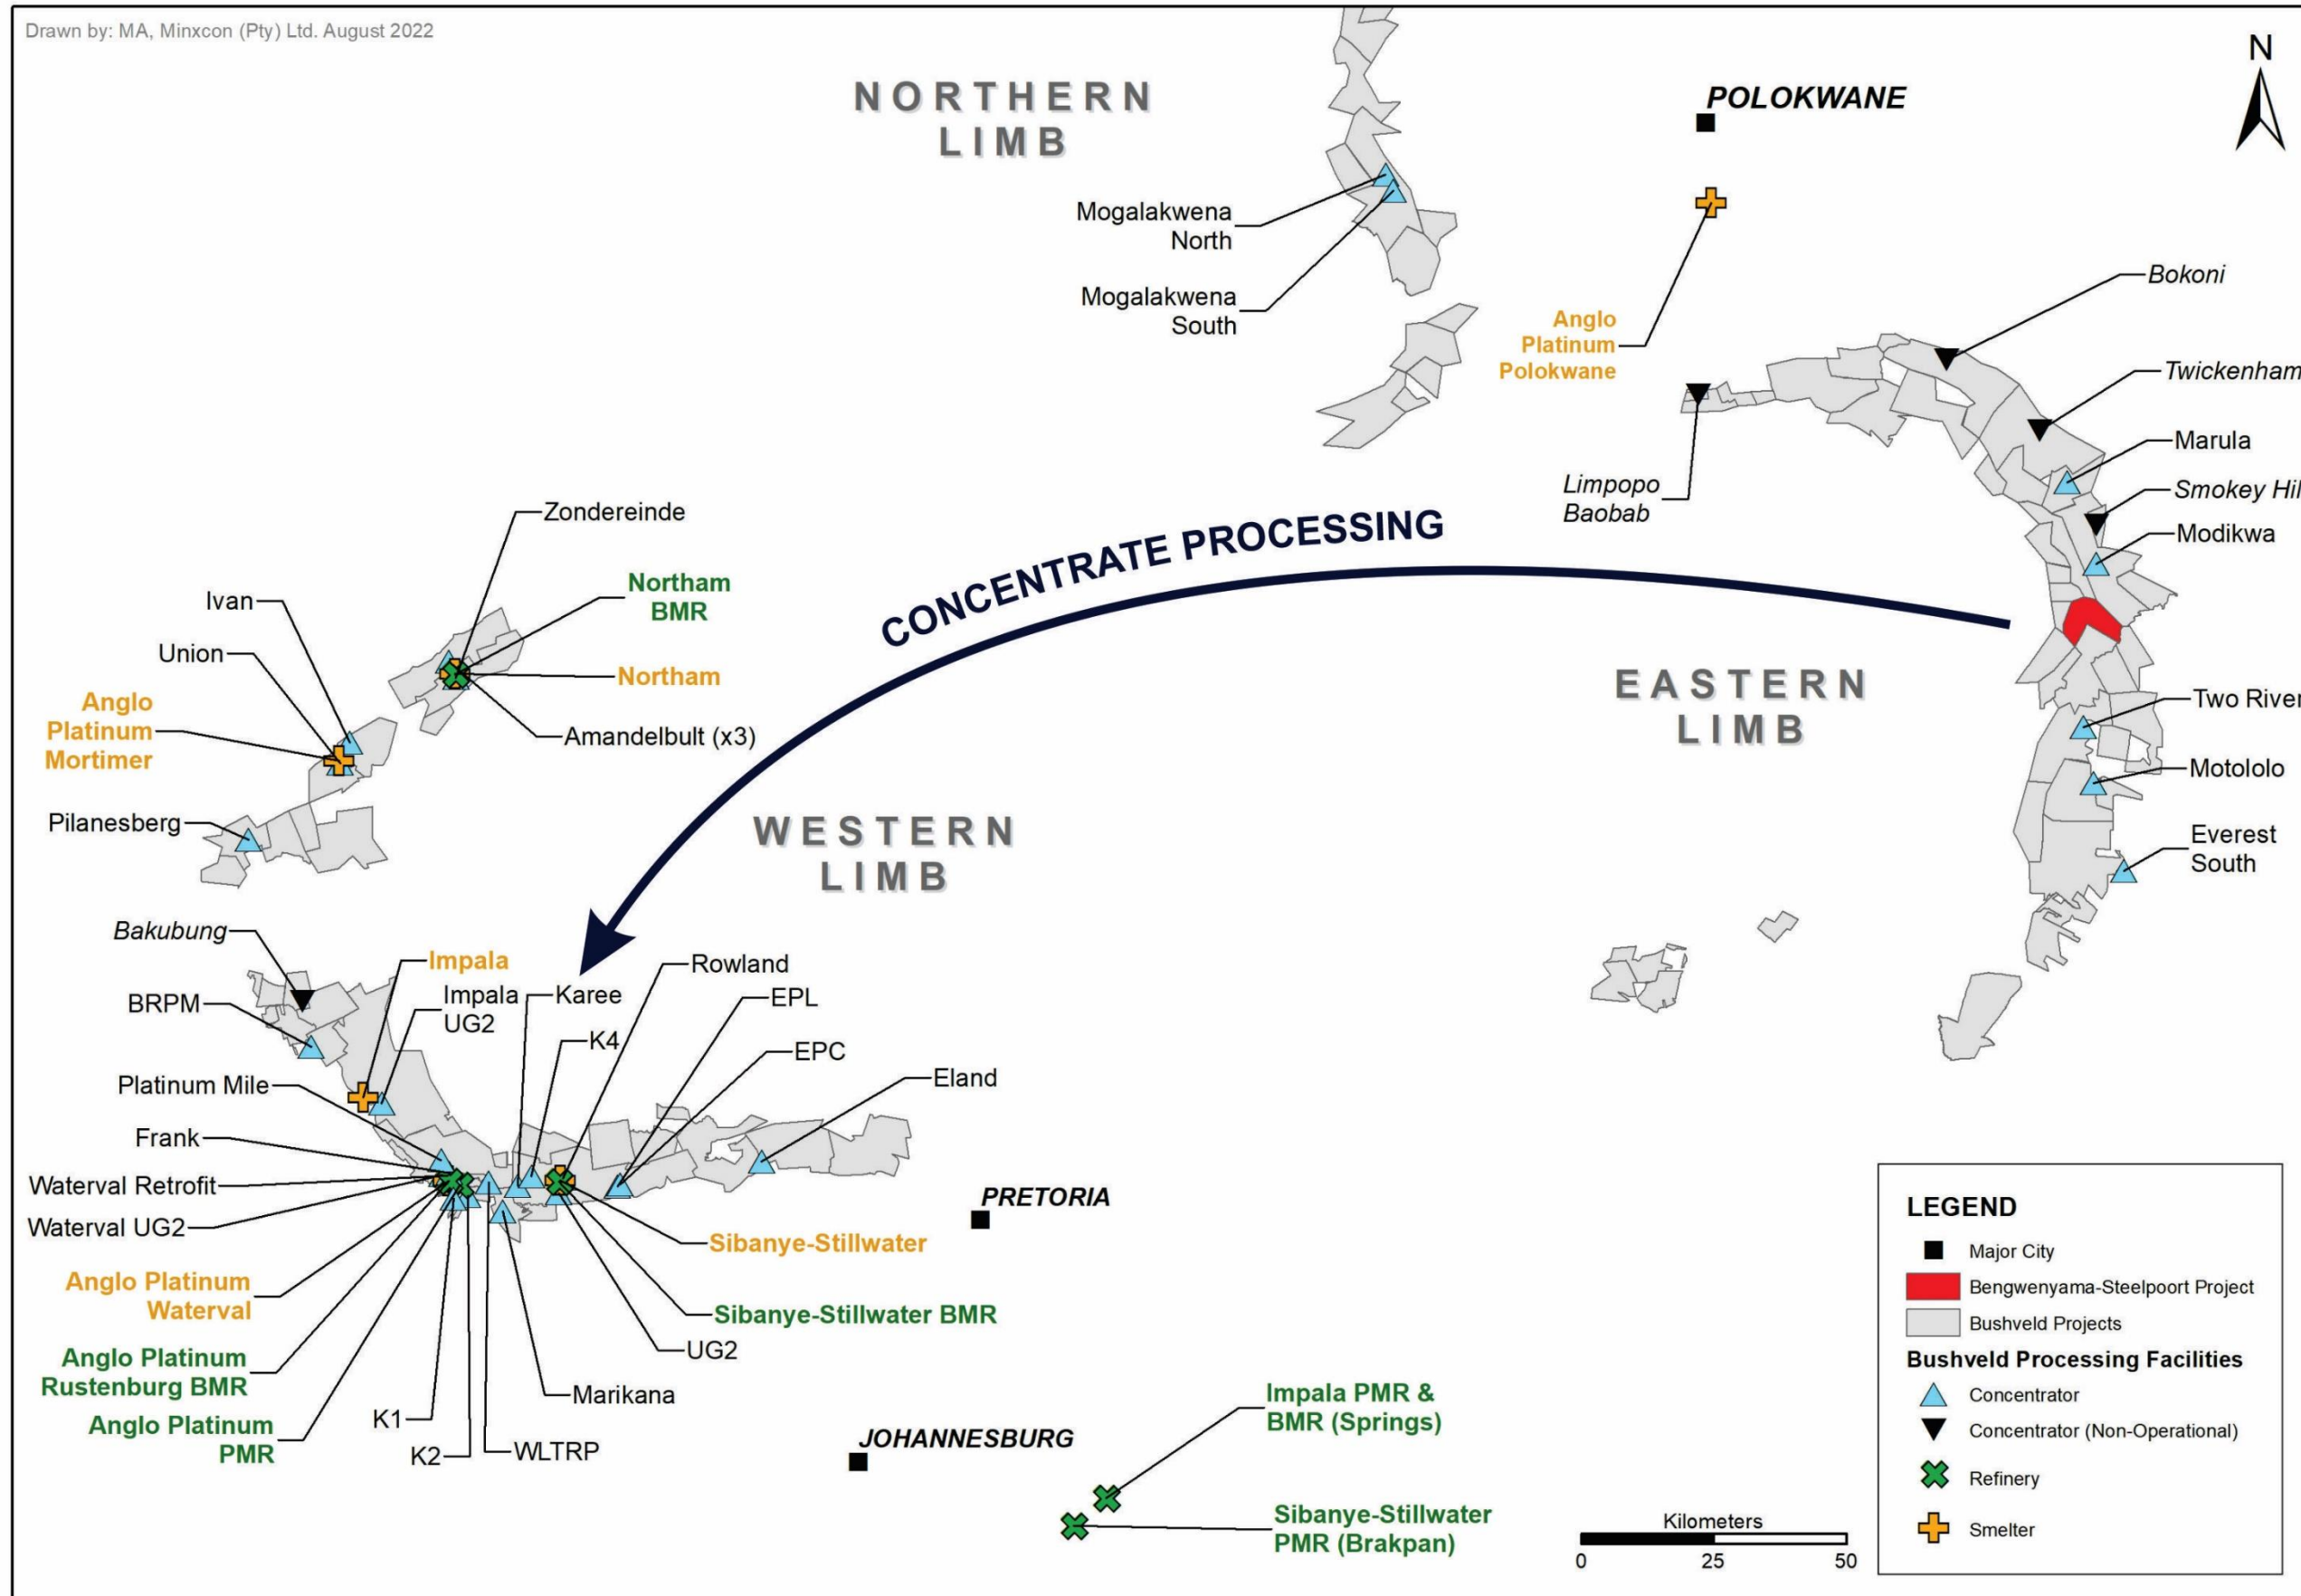

- Nickel
- Copper
- Cobalt Sulphate
- Sodium Sulphate
- Nickel sulphate

- PGMs
- Gold

- Autocatalysts
- Jewellery
- Other Industrial products (e.g. chemicals, electronics, fuel cells)

Good Drill Rig Availability

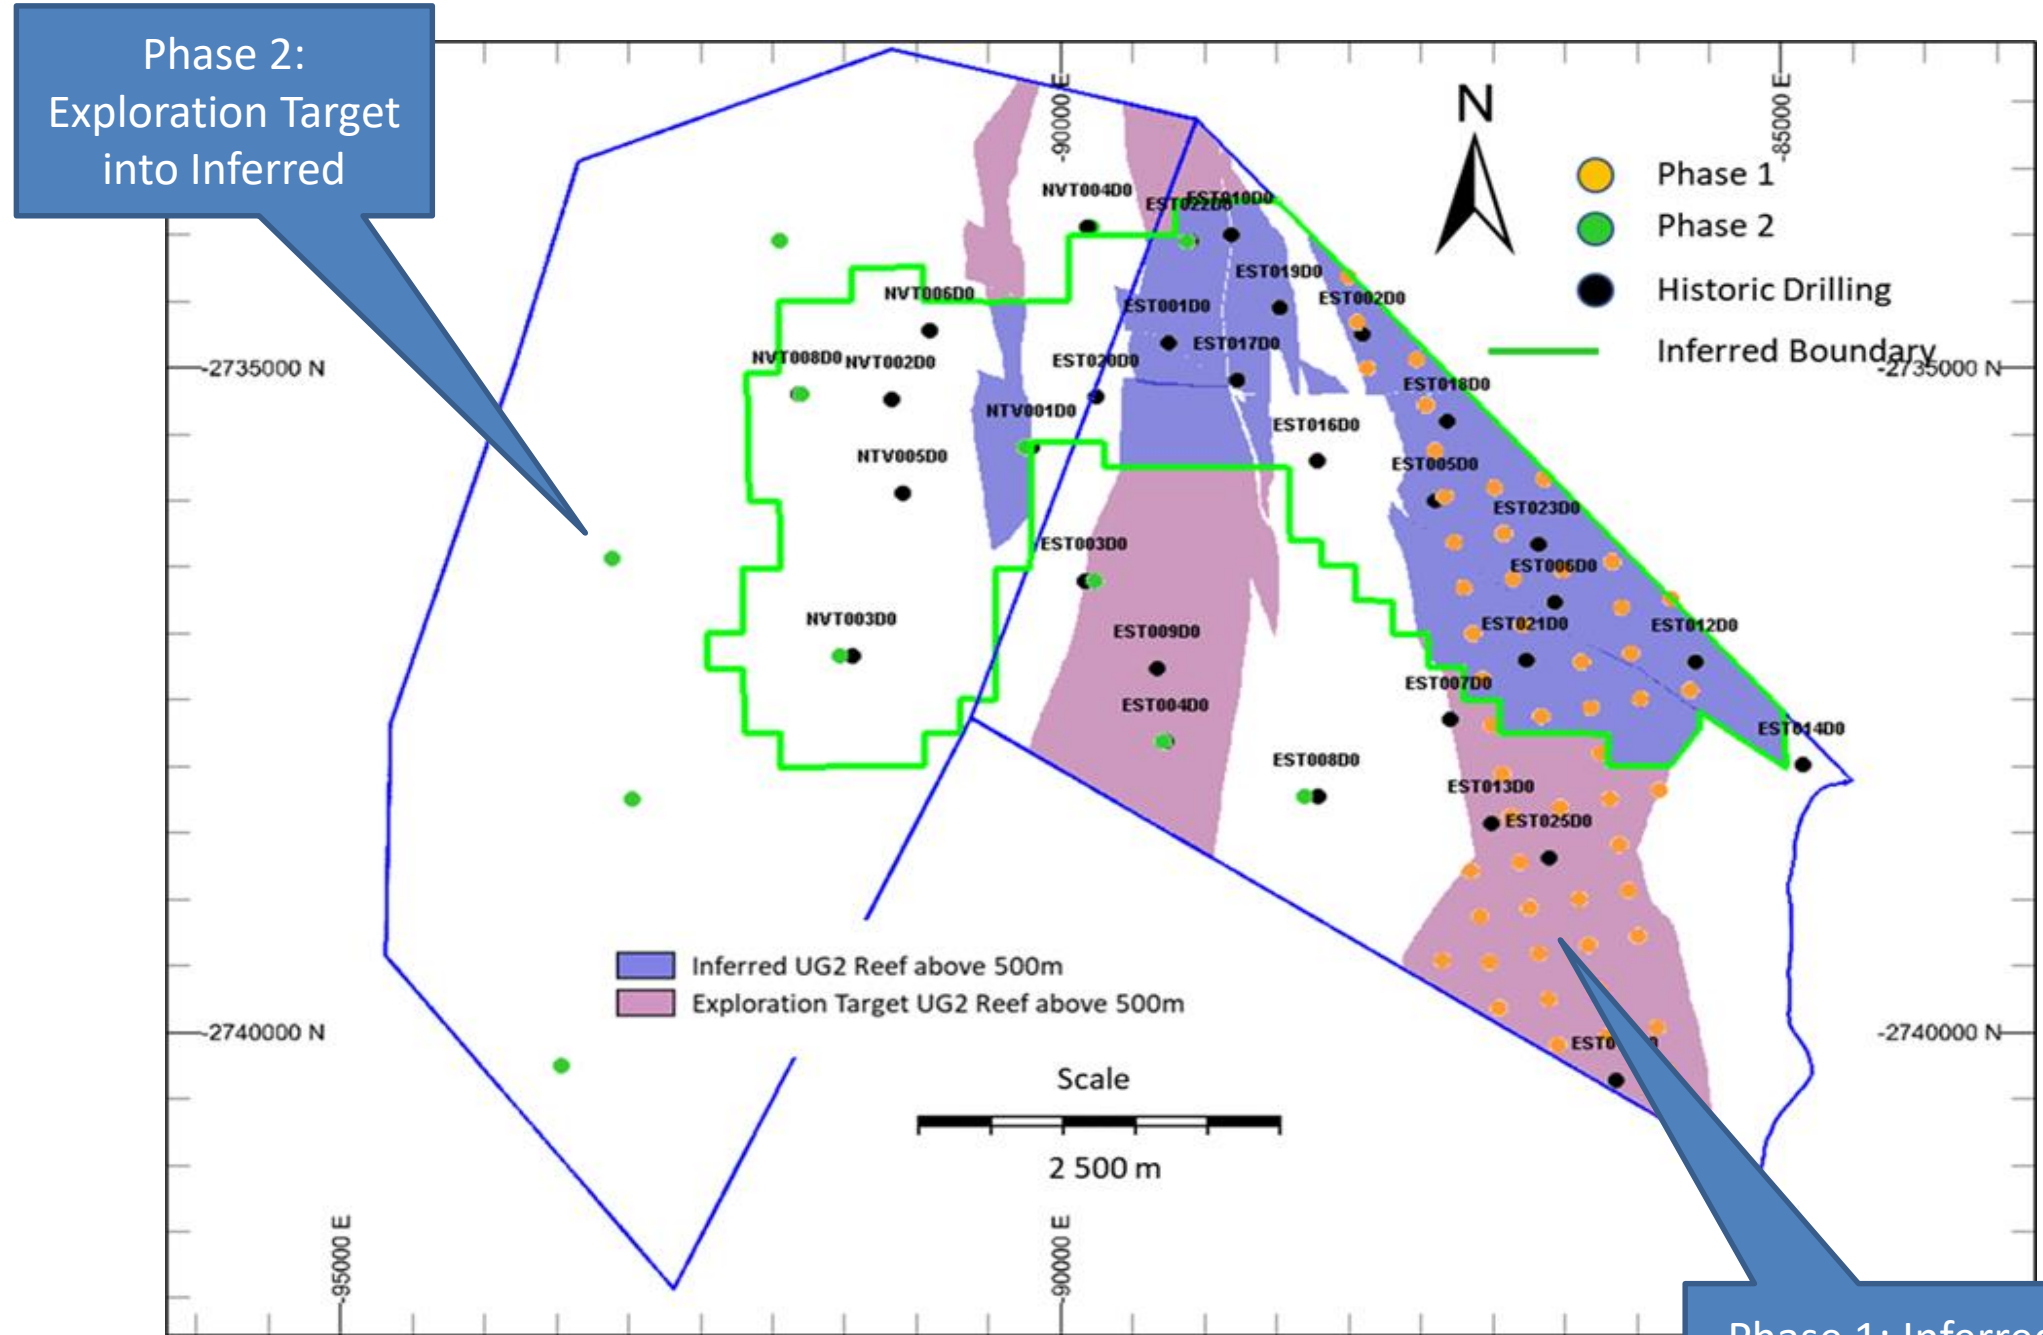

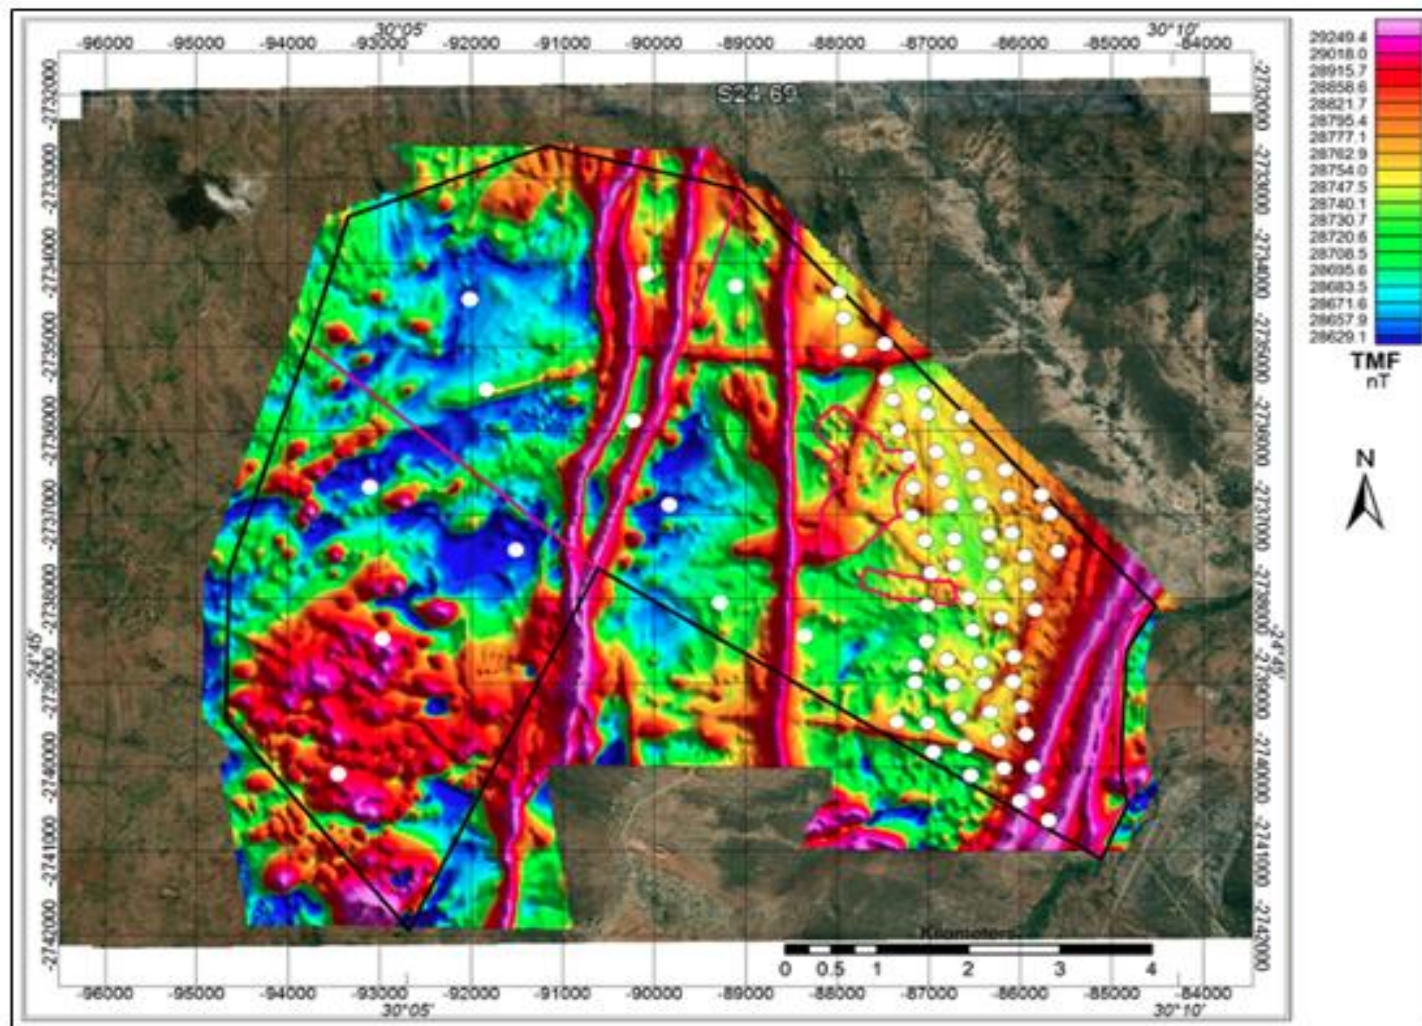

Access to Power

Mines Rescue Services Centre

Exploration Plan | 25,000m Of Drilling Over 10-12 Months

- Phase 1 aims at delivering JORC Indicated Resources
- Phase 2 will convert remaining Exploration Target to Inferred Resources
- Overlying Merensky Reef to be intersected, contributing to JORC Resources
- Initial reserve potential from close to surface to 500m depth
- High-definition helicopter-borne geophysical survey completed confirms confidence in orebody and absence of anomalous (Loss of Reef)

Phase 2:
Exploration Target
into Inferred

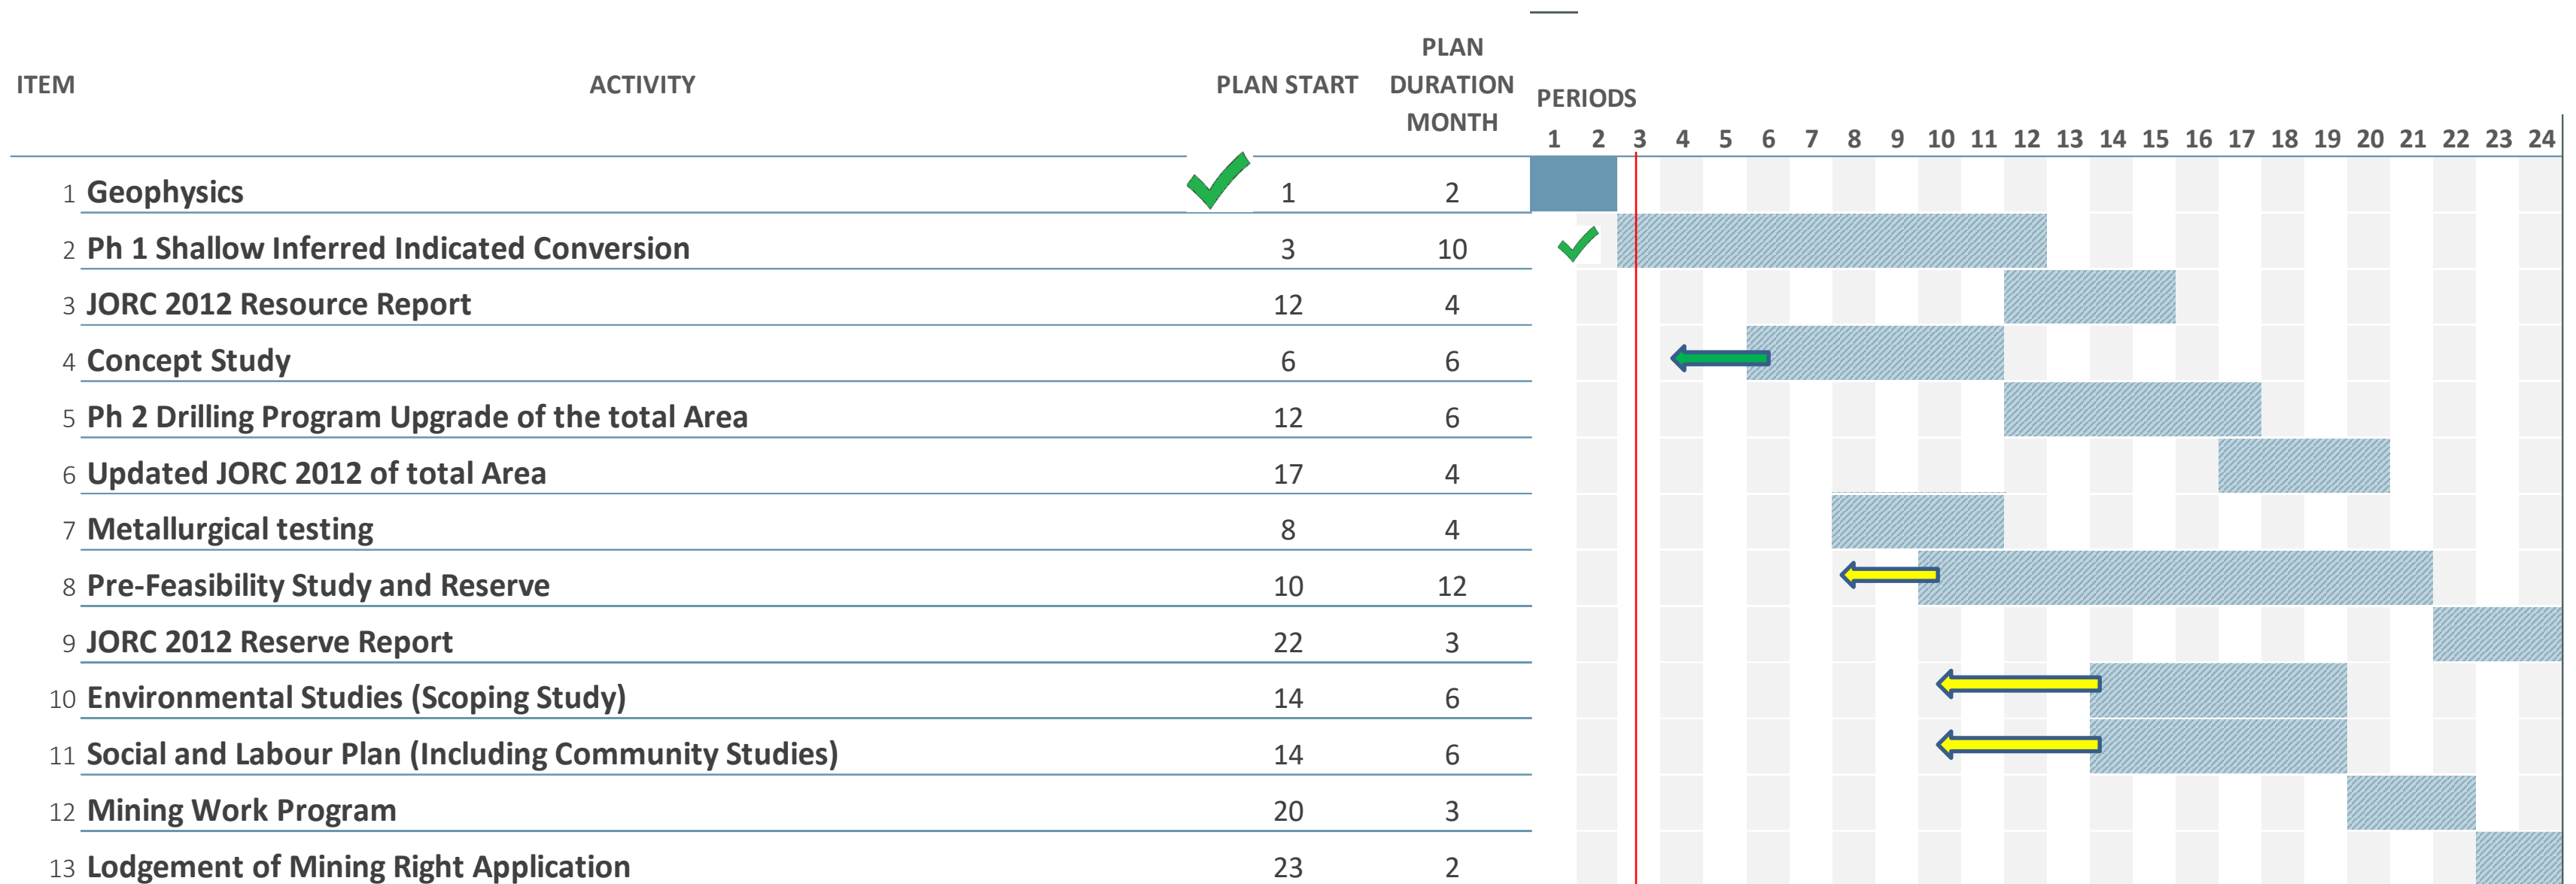

Phase 1: Inferred
and Exploration
Target into
Indicated

Phase	Drillholes	Total drilling (m)
Phase 1	63	24,464
Phase 2	12	13,582
Total	75	38,046

Drilling Commenced: Geomech Atlas Copco CS-1500

Exploration/Pre-development Timeline

- Geophysics flyover completed in Jan 2022
- Drilling started in August 2022
- Indicated Resource within 12 months
- Concept study brought forward
- Start of pre-feasibility study in month 10 with 12 months to completion
- Aiming to lodge Mining Right Application within 24 months of IPO
- Mining Right approval typically 9-12 months from lodgement

1 Application

- Green hydrogen – Platinum and Iridium
- Fuel cells – Platinum
- Autocatalysts in Internal Combustion Engine (“ICE”) – Palladium, Platinum and Rhodium still the biggest driver

2 PGM use in vehicles

- BEVs will replace some ICE
- Strict emissions standards for ICE
- Fuel cells will consume more Platinum
 - Around 6 Moz expected to be consumed in fuel cells between now and 2030

3 Rising demand for all PGMs

- More stringent emissions control legislation in next decade
- Current developments in terms of new supply and exploration are limited – the low hanging fruit has been taken
- A return of PGM prices to pre-2019 level, could possibly put 40% of SA production at risk

The SPD board members bring their collective experience in ESG matters to the management of the company and the project.

ENVIRONMENT

Our approach to environmental stewardship is based on minimising harm.

SOCIAL

The resident Bengwenyama Community is a respected partner and the sole traditional owner of the assets. The development of the project in a safe and healthy environment is designed to benefit both shareholders and the Community.

GOVERNANCE

The boards of SPD and MUM are committed to a high level of corporate governance and ethical standards.

“Bengwenyama Dream – Yes We Can!!

- *Upliftment of the Community*
- *Developing the Community and eradicating poverty by creating employment in the long term, therefore, changing lives.*
- *To change the perception of funders and other critics and show that a community can successfully develop a project.*
- *To economically contribute into the mainstream economy”*

- Bengwenyama Community Feb 2022

LOCATION

The right address with top tier potential and with strong single community support.

UNLOCKING POTENTIAL

Potential to increase with exploration program and PFS. 70% of IPO funds into the ground over two years.

ATTRACTIVE VALUE

Currently trading at a significant discount to its peers with a market capitalisation of A\$83m and EV of ~A\$66m/USD45m

GREEN ECONOMY

Global carbon reduction and ICE emission control has stimulated renewed interest in PGMs with demand fueling PGM prices over past two years.

MANAGEMENT TEAM

Management team with an outstanding track record in PGMs, South Africa, mine project development and mining experience.

RAPID ADVANCEMENT

Two-year program aimed at delivering PFS for a significant new PGM mine followed by the submission of a Mining Right Application. Shallow access allows for rapid development.

The information in this report that relates to Mineral Resources at the Bengwenyama Project is based on details originally reported in the Independent Technical Assessment Report (ITAR) No. R246.2021 prepared by CSA Global dated 19 April 2022 contained in the Company's Prospectus and Pre-Listing Statement dated 22 April 2022.

The information in the ITAR that relates to Technical Assessment of the Mineral Assets, Exploration Targets, or Exploration Results is based on information compiled and conclusions derived by Dr Brendan Clarke, a Partner and an employee of CSA Global. The information in the ITAR that relates to Mineral Resources is based on work undertaken by Anton Geldenhuys, a Principal Consultant and employee of CSA Global. The Prospectus containing the ITAR can be found on the Company's website at: <https://www.southernpalladium.com/site/investor-centre/prospectus>

The Company confirms that it is not aware of any new information or data that materially affects the information included in the ITAR. The Company also confirms that all material assumptions and technical parameters underpinning the estimates in the ITAR continue to apply and have not materially changed. In addition, the Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified.

Note the exploration target has been presented by CSA Global as follows:

Category	Reef	Minimum tonnes (Mt)	Maximum tonnes (Mt)	Minimum grade (3PGE+Au g/t)	Maximum grade (3PGE+Au g/t)
Exploration Target	UG2	45	68	5.9	8.9
Exploration Target	Merensky Reef	88	133	2.2	3.4
Total		134	201	3.5	5.2
