The information contained in this Presentation is not financial product, investment, legal, taxation or other advice or any recommendation to acquire securities in the Company. No reliance may be placed for any purpose whatsoever on the information contained in this Presentation. This Presentation does not and will not form any part of any contract for the acquisition of securities in the Company. This Presentation has been prepared without taking into account your investment objectives, financial situation or particular needs. Before making an investment decision, you should make your own enquiries and investigations, and consider whether it is a suitable investment for you in light of your own investment objectives, financial situation and particular needs, having regard to the merits or risks involved. An investment in securities in the Company is subject to investment and other known and unknown risks, some of which are beyond the control of the Group. The Company does not guarantee any particular rate of return or the performance of its securities, nor does it guarantee any particular tax treatment. You should carefully consider the risks outlined in this Presentation before making an investment decision.

This Presentation contains forward looking statements, including statements regarding the Company's intentions, beliefs or current expectations about the Group's business and operations, and market conditions. Forward looking statements can generally be identified using forward looking words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target" and other similar expressions. Forward looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Forward looking statements involve known and unknown risks, uncertainties, assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends which are based on interpretations of current market conditions. Actual results, performance or achievements may vary materially from any forward looking statements and the assumptions on which statements are based. Except as required by law or regulation, the Group disclaims all obligations to update publicly any forward looking statements, whether as a result of new information, future events or results or otherwise. Past performance information given in this Presentation is given for illustrative purposes only and should not be relied upon as an indication of future performance.

Certain market and industry data used in connection with this Presentation may have been obtained from research, surveys or studies conducted by third parties, including industry or general publications. Neither the Group nor its representatives have independently verified any such market or industry data provided by third parties or industry or general publications. No representation or warranty, express or implied, is made as to its fairness, accuracy, correctness, completeness or adequacy.

None of the Group's advisers, directors, officers, employees or agents have authorised, permitted or caused the issue, dispatch or provision of this Presentation nor, except to the extent referred to in this Presentation, made or purported to make any statement in this Presentation. To the maximum extent permitted by law, the Group and its advisers expressly disclaim all liabilities and responsibility in respect of any expenses, losses, damages or costs incurred by any recipient as a result of the use or reliance on anything contained in or omitted from the information in this Presentation, including, without limitation, any liability arising from fault or negligence or otherwise, and make no representation or warranty, express or implied, as to the fairness, currency, accuracy, reliability or completeness of the information contained in this Presentation.

This Presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States. Securities in the Company have not been, nor will be, registered under the U.S. Securities Act of 1933, as amended (U.S. Securities Act) or the securities laws of any state or other jurisdiction of the United States. Accordingly, the securities in the Company may not be offered or sold, directly or indirectly to, persons in the United States or persons who are acting for the account or benefit of a person in the United States unless they have been registered under the U.S. Securities Act (which the Company has no obligation to do so or procure) or in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and any other applicable U.S. state securities laws.

# OPTIMISED PREFEASIBILITY STUDY

## STAGED PROCESS

- 2024 PFS confirmed that SPD can establish a **Tier 1** project on the UG2 with a LoM of more than 20 years.
- Next logical step was to **align the base case with alternative funding options**
- Strong focus on achieving **full production** capacity as quickly as possible
- **South Decline** enables faster access to the orebody, supporting early revenue generation and an optimised development timeline
- **Twin haulages** deployed during initial mining phase to accelerate access and support ramp-up to steady-state production

# PATHWAY TO DEVELOPMENT

## KEY NEAR-TERM MILESTONES TO UNLOCK VALUE

# OPTIMISED PREFEASIBILITY STUDY

## KEY TAKE AWAYS

- **Stage 1** is expected to be **strongly cash-generative** in its own right, making it well-suited to attract traditional, market-related project debt financing
- **Stage 2** could potentially be funded from cash flows generated during Stage 1
- The option to utilise existing mineral processing infrastructure in the area – which could significantly reduce peak funding requirements – is also under evaluation
- Near-term value catalysts for **Bengwenyama PGM Project**:
  - issue of Mining Right anticipated in the near term
  - infill drilling and metallurgical test work program, to be incorporated with Optimised PFS results into planned Definitive Feasibility Study (DFS)
